2 · NPS (Net Promoter Score)

Indicador	Valor	n
NPS (Net Promoter Score)	83.87	31

3 · Efficiency

3a · Mejora en eficiencia calculada (participantes, n=29)

Indicador	Valor	n
Promedio horas ahorradas / semana	4.2 hrs	29
Organizaciones que mejoraron su eficiencia	15	29
% mejora eficiencia calculada	**51.72%**	**29**

"52% of the fellows increased their efficiency through the programme, reaching an average of 4.2 hours saved per week on administrative or repetitive tasks. The saved time can now be dedicated to strategic priorities that move their organizations' mission forward."

Gráfico recomendado: Card + small donut (% orgs que mejoraron eficiencia)

3b · Mejora en eficiencia proyectada a futuro (participantes, n=31)

Horas proyectadas ahorradas / semana	N	%
Entre 1 y 2 horas	7	22.58%
Entre 3 y 4 horas	13	41.94%
Mas de 5 horas	11	35.48%
TOTAL	**31**	**100%**

"Participants anticipate continued efficiency gains as they deepen their use of the AI and digital tools learned. Looking ahead, 78% expect to save at least 3 additional hours per week, with 35% expecting to save over 5 hours."

Gráfico recomendado: Card (solo insight / metricas clave)

4 · AI Adoption Level (percibido al finalizar el programa) - participantes (n=31)

Nivel de Adopcion AI	Descripcion	N	%
Activo	Uso regular pero aislado, limitado a un equipo o funcion especifica -> 50% adopcion	16	51.61%
Explorando	Interes o pruebas iniciales, sin uso regular -> 25% adopcion	3	9.68%
Integrado	Uso regular y coordinado en varias areas o procesos -> 75% adopcion	10	32.26%
Estrategico	IA incorporada en procesos clave y en la estrategia organizacional -> 100% adopcion	2	6.45%
TOTAL		**31**	**100%**

"Following the completion of the programme, organizations reached different levels of AI adoption. 52% of the fellows report their organizations are at an active level, where AI use is regular but still limited to specific teams or functions. 32% reached an integrated level, and 6% the highest stage: strategic adoption, where AI supports key processes and organizational strategy."

Gráfico recomendado: Single stacked bar, bar chart o pie (distribucion por nivel de adopcion)

5 · AI Maturity Level

5a · Aumento de madurez AI (Baseline vs. Endline, organizaciones, n=21)

Cambio en Madurez AI (Baseline vs. Endline)	N	%
Mejoraron	6	28.6%
Bajaron	2	9.5%
No mejoraron	13	61.9%
TOTAL	**21**	**100%**

"AI adoption showed early signs of progress across the fellowship's first cohort. Almost one-third of organizations (29%) increased their level of AI adoption between baseline and endline, while most maintained their initial level, with only two showing a decrease. These patterns point to a gradual transition from simpler AI use to more advanced applications - a trajectory expected to strengthen as organizations continue developing their AI capabilities."

Gráfico recomendado: Radial gauge con tres segmentos (decreased, same, improved)

5b · Nivel de Madurez AI calculado al cierre (Endline, organizaciones, n=23)

Nivel de Madurez AI (Endline)	N	%
Avanzado	1	4.35%
Intermedio	10	43.48%
Principiante	12	52.17%
TOTAL	**23**	**100%**

"At endline, 52% of organizations were at a Principiante level, 43% at Intermedio, and 4% reached an Avanzado level of AI maturity."

Gráfico recomendado: Pie chart (distribucion de niveles de madurez AI al final del programa)

6 · Uso de herramientas Google AI - participantes (n=31)

Frecuencia de uso herramientas Google AI	N	%
Cada dia	8	25.81%
Varias veces por semana (2-4 veces)	15	48.39%
Una vez por semana o menos	6	19.35%
No las he usado en las ultimas 6 semanas	2	6.45%
TOTAL	**31**	**100%**

"Nearly half of participants (48%) use Google AI tools several times per week, and one in four uses them daily. This shows how tools like Gemini, Google Workspace with AI, Google Analytics, or NotebookLM are becoming key allies for working more efficiently and creatively."

Gráfico recomendado: Pie chart (frecuencia de uso de herramientas Google AI)

7 · AI Mindset Index - participantes (n=31)

AI Mindset Index	N	%
2.5 - bajo	1	3.23%
4 - medio-alto	6	19.35%
4.5 - alto	6	19.35%
5 - muy alto	18	58.06%
TOTAL	**31**	**100%**

"By the end of the program, readiness for AI adoption was remarkably high across the cohort. 94% of fellows scored between 4 and 5 on the AI Mindset Index, reflecting both strong openness to experimenting with AI and a clear conviction that AI is essential for amplifying social impact."

Gráfico recomendado: Pie chart (distribucion de puntajes AI Mindset Index)

8 · Tool Learning

8a · Aprendizaje significativo (calificaciones 4 y 5) - participantes (n=31)

Area	Descripcion	N	%
Marketing	Herramientas de marketing digital	30	96.8%
Impacto	Herramientas para medir impacto	29	93.6%
Ser mas eficiente	Herramientas para mejorar eficiencia del dia a dia	28	90.3%
Fundraising	Herramientas para optimizar captacion de fondos	25	80.7%

"Most fellows (97%) began using new tools to streamline their workflows. They strengthened their toolkits across key areas: 97% learned new tools for digital marketing, 94% for measuring impact, 90% for improving day-to-day efficiency, and 81% for optimizing fundraising."

Gráfico recomendado: Horizontal bar chart (% de aprendizaje significativo por area)

8b · Promedio de aprendizaje por area (escala 1-5) - participantes (n=31)

Area	Promedio (escala 1-5)
Marketing	4.55
Impacto	4.45
Ser mas eficiente	4.39
Fundraising	4.32

"Average tool learning was strong across all topics, led by Marketing and Impact. Efficiency and Fundraising followed closely, suggesting a well-rounded experience with room for deeper support in select areas."

Gráfico recomendado: Horizontal bar chart (promedio de puntaje por area)

9 · Digital Maturity

9a · Cambio madurez digital por item (Baseline vs. Endline, organizaciones, n=21)

Item de Madurez Digital	Mejoraron	%	Mantuvieron maximo nivel	%	Bajaron	%	No mejoraron	%
Q1 - Cultura organizacional	10	47.6%	4	19.0%	2	9.5%	5	23.8%
Q2 - Digitalizacion de procesos	4	19.0%	0	0.0%	4	19.0%	13	61.9%
Q3 - Canales de comunicacion	5	23.8%	2	9.5%	1	4.8%	13	61.9%
Q4 - Personalizacion de comunicaciones	8	38.1%	0	0.0%	4	19.0%	9	42.9%
Q5 - Uso de datos	7	33.3%	0	0.0%	3	14.3%	11	52.4%
Q6 - Adopcion IA	6	28.6%	0	0.0%	2	9.5%	13	61.9%
TOTAL - Indicador calculado	**13**	**61.9%**	**0**	**0.0%**	**2**	**9.5%**	**6**	**28.6%**

"Most organizations improved in at least one dimension of digital maturity, with notable gains in organizational culture (48%), personalized communications (38%) and data use (33%). Overall, 62% increased their total digital maturity score, and one-third moved up a full maturity level - mainly from beginner to intermediate. Even though it is early to fully observe long-term digitalization shifts, these results show digital practices beginning to take root at the core of the organizations' work."

Gráfico recomendado: Stacked bar chart por item (mejoraron, sin cambio, empeoraron)

9b · Cambio nivel de madurez digital (Baseline vs. Endline, organizaciones, n=21)

Cambio de Nivel de Madurez Digital	N	%
Principiante -> Intermedio	6	29%
Intermedio -> Avanzado	1	5%
Avanzado -> Avanzado	1	4.8%
Total outcomes positivos	**8**	**38%**

"One-third of organizations moved up a full maturity level between baseline and endline, mainly from Principiante to Intermedio (29%). In total, 38% of organizations showed positive outcomes in their digital maturity trajectory."

Gráfico recomendado: Stacked bar chart (Baseline vs. Endline por nivel de madurez digital)

10 · Community Building

10a · Colaboracion e identificacion de contactos (participantes, n=31)

Colaboracion e identificacion de contactos	N	%
No, no he establecido nuevos contactos	2	6.45%
No, pero he identificado posibles contactos	13	41.94%
Si, pero aun no hemos trabajado juntos	16	51.61%
TOTAL	**31**	**100%**

"Collaboration networks expanded during the Fellowship. Over half of participants (52%) established new contacts and 42% identified potential collaborators. Additionally, 100% of organizations shared practices with peers."

Gráfico recomendado: Pie chart (distribucion de tipo de nuevo contacto establecido)

10b · Practicas compartidas entre organizaciones (n=23)

Practicas compartidas entre organizaciones	N	%
Si, compartieron practicas con pares	23	100.00%

10c · Aumento de confianza en herramientas digitales (participantes, n=31)

Aumento de confianza en herramientas digitales	N	%
Aumento mucho	23	74.19%
Aumento un poco	7	22.58%
No hubo cambios	1	3.23%
TOTAL	**31**	**100%**

"Most participants (97%) reported feeling more confident using digital tools to solve challenges and improve their work practices after the programme."

Gráfico recomendado: Card + small donut (% que reporto aumento de confianza)

11 · Identificacion de oportunidades de crecimiento con tecnologia (n=23)

Identificacion de oportunidades de crecimiento	N	%
Si, identificaron oportunidades de crecimiento	23	100%

"Every organization (100%) identified new growth opportunities using technology, reflecting the programme's ability to spark concrete ideas and next steps through peer exchange and specialized coaching."

Gráfico recomendado: Solo insight / card
